Fine Italian Design

Production

Cutting and drying

In the internal sawmill we only cut top quality logs from certified forests. The drying process carried out in our ovens is followed moment by moment as it is of fundamental importance for the final qualitative yield of the product.

Internal manufactures

The internal processes are carried out in a workmanlike manner starting from the cutting of the trunk up to the finished product, making use of the artisan know-how and the most modern technologies. The product obtained is so beautiful, solid and competitive as to express the good taste of *Italian know-how*.

Finishes: creative and good quality

The most exciting part of our work is the creation of the finished product. Our **creative center** turns clients' dreams into reality. Shapes, colors, inspirations from the world of design, art, fashion, up to perfumes and sensations: everything inspires the continuous search for new finishes and fabrics. The resulting product is new and different every day, managing to satisfy the different customers and managing to amaze us too.

Producție del fusto, taglio ed essicazione

Nella segheria interna tagliamo solo tronchi di prima qualità e provenienti da foreste certificate. Il processo di essicazione eseguito nei nostri forni viene seguito momento per momento in quanto è di importanza fondamentale per la resa qualitativa finale del prodotto.

Lavorazioni interne

Le lavorazioni interne vengono eseguite a regola d'arte a partire dal taglio del tronco fino al prodotto finito, avvalendosi del sapere artigianale e delle più moderne tecnologie. Il prodotto ottenuto è così bello, solido e competitivo da esprimere il buon gusto del *saper fare italiano*.

Finiture: creative e di qualità

La parte più entusiasmante del nostro lavoro è la realizzazione del prodotto finito. Il nostro **creative center** trasforma i sogni dei clienti in realtà. Forme, colori, ispirazioni provenienti dal mondo del design, dell'arte, della moda, fino ai profumi e alle sensazioni: tutto ispira la ricerca continua di nuove finiture e stoffe. Il prodotto che ne risulta è ogni giorno nuovo e diverso, riuscendo a soddisfare i diversi clienti e riuscendo a stupire anche noi.

Producția, tăierea și uscarea

În gaterul interior tăiem doar bușteni de calitate superioară din păduri certificate. Procesul de uscare desfășurat în cuptoarele noastre este urmărit moment de moment deoarece este de o importanță fundamentală pentru randamentul calitativ al produsului final.

Prelucrare internă

Procesele interne se desfășoară într-un mod muncitoresc, începând de la tăierea trunchiului până la produsul finit, folosindu-se tehnologii moderne. Produsul obținut este atât de frumos, solid și competitiv încât exprimă bunul gust al "know-how"-ului italianesc.

Finisaje: creative și de calitate

Cea mai interesantă parte a muncii noastre este crearea produsului finit. Centrul nostru de creație transformă visele clienților în realitate. Forme, culori, inspirații din lumea designului, artei, modei, până la parfumuri și senzații: totul inspiră căutarea continuă de finisaje și țesături noi. Produsul rezultat este nou și diferit în fiecare zi, reușind să satisfacă diferenții clienți și reușind să ne uimească și pe noi.
